

CARBON NEUTRAL CERTIFICATE

PROUDLY PRESENTED TO

SHREEJI SCREEN AND FILTERS PRIVATE LTD.

This certificate is presented to Shreeji Screen and Filters Private Limited in recognition of achieving carbon neutrality for its GHG emissions during FY 2024–2025. This milestone underscores the company's leadership in environmental stewardship and its ongoing commitment to addressing climate change.

Carbon Neutral Achievement Period	FY 2024-25
Total GHG Emissions	48 t-CO ₂ e (covering Scope 1 & 2)
Carbon Neutral Achievement Process	The above-mentioned GHG emissions have been verified by EKI. To achieve carbon neutrality, Shreeji Screen And Filters Private Limited has retired the certified emission reductions (CERs) carbon offsets against the residual emissions amounting to 48 tons of carbon dioxide equivalent. These offsets are from VCS 1739, a hydropowerectric project in India. https://registry.verra.org/app/projectDetail/VCS/1739
Date of Issue	10/02/2026
Reference Standards	GHG Protocol: Corporate Standard
